TO DCSRM
ATTN: IARM-SA

1. Attached is a revised copy of para 014, HQ INSCOM TDA ASWOYAA, AS0180, dealing with the ADCSOPS-HUMINT.

2. Request that TDA ASWOYAA be changed to include these corrections, which:

a. Are a redistribution of spaces to agree with our current organization. An audit trail is provided for each space.

b. Total authorizations are the same as AS0180.

c. Total requirements show 12 more than para 014, AS0180 because the appropriate ASD Augmentation spaces from para 018 are included as required, not authorized.

d. The primary changes reflected are correction to our actual organizational structure, and corrections to MOS Codes to accurately identify the personnel needed under our actual structure and the operational changes that occurred in the past two years.

3. Justification for TDA corrections is provided in CMT 1.
